Session 4 Afternoon: June 25-29 (12:30 -3:00)

451 – Welcome Woodridge

Incoming K-2nd grade | $135 | Kelly Hankamer

"New school? No problem! No worries! Come and see all that Woodridge has to offer. You will get to know Woodridge "in and out" before the first days of school. Each day will have a special theme as we learn more about being a student at Woodridge. We will explore the campus and let you know what to expect as a first grader at Woodridge. You will find out "life is good" at Woodridge!

452 – China STEAM

Incoming K-2nd grade | $145 | Mary Field

Get immersed in Mandarin Chinese with China STEAM! This class will introduce students to basic Mandarin through STEAM-based activities. Students will learn colors, numbers, animals and shapes while learning about rockets, tangrams, ancient pottery and more. While learning a new language, students will also learn about Chinese culture, practice their math skills and participate in hands-on activities. All materials are included in the program fee. Camp instructor, Mary Laoshi, has been teaching Chinese in San Antonio since 2015.

453 – Jedi Knight Training Camp

Incoming K-2nd grade | $130 | Jennifer Fernandez

Attention all Star Wars fans! Now is your chance to practice your light saber skills, build your own droid and master the Jedi training course. We'll cook, sing, create and play to defeat the Dark Side. May the force be with you as you join us for a week of fun!

454 – Games Galore and More

Incoming K-2nd grade | $125 | Tobey Cleek

Games are a timeless and unique way to keep your mind sharp, your heart happy and your friendships alive. Each day will feature a variety of games such as Yahtzee and Double Nines. The skills learned will reinforce the math concept of subitizing using dice or dominoes. We will also play spades, gin, speed and nerts. These card games reinforce number combinations and ordinal numbering. Because every student is different, we will also play games to help increase communication through vocabulary and drawing. These skills will be reinforced with Pictionary, Scattergories and Apples to Apples. No game week is complete without trivia! "Are you smarter than a 5th Grader?" Play this game and find out! Each win in a game, each risk you take and every growth mindset strategy you use will be rewarded with tickets. A drawing will be held at the end of each day for a full-size games we play, supplies to take home and practice your strategies and more! The sooner you start learning how to play, the faster you will be able to master the fun and cultivate your competitive edge. Don't miss out on the fun with us!

455 – Twirling with a Twist!

Incoming 1st-6th grade | $140 | Tammy Wasson

This fun filled class will teach the ups and downs and ins and outs of beginner baton twirling! We will also learn fun routines, dance moves and gymnastics. We will be learning how to ribbon twirl as well - this is something new and cool! Be ready to perform on Friday, as we put on a memorable performance for your family. There will be fun opportunities to win camp prizes, and of course, you get to keep your baton and ribbon! Once you pick up a baton, you can't put it down!

456 – Broadway for Beginners and Beyond

Incoming K-5th grade | $130 | Denise Warren-Heath

Have you ever dreamed of being a star on the stage? If so join us for a fun filled week of theatre. Bring your imagination and creativity to life by acting, singing, dancing, making puppets, props, sets, playing theatre games and much much more! Amaze your friends and family with a full performance on Friday. No experience necessary.

457 – Storybook STEAMers

Incoming K-2nd grade | $130 | Melissa A Tarun

Explore science, technology, engineering, art and math (STEAM) through the world of storybooks! Using our favorite children's books as a starting point, we will dive into experiments, games, and art activities that inspire creativity. This is a hands-on learning camp with many opportunities for problem solving and teamwork.

458 – Sculpting is FUN!

Incoming 1st-8th grade | $140 | Tina Barajas

Do you love to create by building, smashing, and expressing yourself with sculpting materials? If creating your own creeper, Pokémon, or accessories for your doll house sounds fun then this is the camp for you! We will be exploring different sculpting mediums such as polymer clay, origami, foil, magnetic sand, and soap sculpture. Each camper will create a variety of objects and characters. Working in sculpture enhances an understanding of spacial relationships, shapes, and physics in addition to developing our tactile skills. Sculpting activities will vary.

459 – MINECRAFT Mania!

Incoming 2nd-6th grade | $135 | JoAnne Alverio

Minecrafters of the world unite! This is a great opportunity to meet with other Minecraft gamers and friends to chat, strategize, and collaborate to engineer and see the mission through. Build practically anything you can imagine – but enter at your own risk in Minecraft Mania! You'll even get to build, explore and be creative with LEGO Minecraft masterpieces. With parent permission, it is highly recommended but not required that you bring your technology device to the session to work with other Minecraft buddies. Students should already have an active Minecraft account if they choose to play on their electronic device. There are no limits in this session, go as far as your imagination will take you in MINECRAFT Mania! Of course Minecraft Creeper Munch will be provided to keep our gamers energized!

460 – When in doubt, DANCE it out! Cardio Dance & Fitness

Incoming 2nd-5th grade | $125 | Jessica Marie Sanchez

Fun and challenging, a full body workout! Cardio Dance is a choreographed based workout program that challenges you to step out of your comfort zone and leave it all on the dance floor. You will learn all styles of dance like hip hop, jazz, lyrical, Latin fusion/zumba while getting an incredible workout, stretching techniques, resistance training, balance and coordination skills. The "fitness" is built into the workout with easy-to-follow choreography for the ultimate cardio workout. Dances will be taught step by step through each movement, so you don't have to be a dancer to feel the benefits of the class, but by the end you might feel like dancer. No dance experience needed. All levels are welcome, from beginner to elite athletes! Course includes AH Mules Spirit T-shirt & Snack

461 – Young Yogi

Incoming 2nd-5th grade | $135 | Avery Knott

Young Yogi will focus on yoga, some martial arts, creative movement and mindfulness activities. This will be a fun way to get some movement as well as play games, interact with friends, and use creativity and expression in daily "projects". This is a great class for building confidence and healthy expression. We will feature fun music, dance and play breaks to keep the fun moving!

462 – Engineering Fun- Build Rollercoasters STEM

Incoming 2nd-5th grade | $150 | Kristel Kass-Muniz

Students will build their own small-scale model roller coasters using pipe insulation and marbles, and then analyze them using physics principles learned in the associated lesson. They examine conversions between kinetic and potential energy and frictional effects to design roller coasters that are completely driven by gravity. A class competition using different marbles types to represent different passenger loads determines the most innovative and successful roller coasters. We will have fun hands on activities. You will learn about the physics and engineering while having engaging activities.

463 – Archery 101

Incoming 3rd-8th grade | $125 | Shane Stevens

"This will be an exciting week long class that will introduce you to the fun, lifelong sport of archery. You will be exposed to everything from basic bow and arrow to Olympic-style shooting. Every participant will have the opportunity to target shoot with state-of-the-art equipment—indoors. Instructor is a Nationally-certified archery coach emphasizing fun and safety.

464 – The Wizarding World of Harry Potter

Incoming 3rd-6th grade | $150 | Krystine Carni

Welcome to Hogwarts! In this course, we will explore the exciting world of Harry Potter. Come and make your own wands and houses banners, learn amazing new science experiments with a magical twist, and create the delicious treats from Honeydukes. This will be the experience of a lifetime, so grab your broomsticks and lets fly into a whole new magical world.

465 – Advanced Basketball

Incoming 3rd- 7th grade | $125 | Greg McLain

Do you want to increase your skills in basketball or think you have what it takes to be an exceptional basketball player? If so, then this is the camp for you!!! This camp is for girls and boys who will learn from a Junior School coach with many years of experience at developing players. During camp, you will work on dribbling, passing and shooting in a variety of drills and games. Focus will also be on proper defense and post moves. Camp highlights are competitions like Hot Shot, Team Passing, and a Ball Handling contest done on Friday for prizes. Each camper will receive a camp t-shirt on Friday. Midday transportation will be provided from Woodridge for FULL DAY campers.

466 – Exploring Robotics with Ozobots!

Incoming 3rd-7th grade | $120 | Randall Wanieck

Learn the visual programming language of Ozobots. Ozobots are tiny robots that love colors and can be programmed by students. With the magic of plain white paper, markers, and some creativity, you can draw lines with color codes to make your Ozobot react to your commands. You will be challenged with math, statistics, competitive games and choreographed custom dances with "OzoGroove"! Coding, or blockly programming language, introduces critical thinking, problem solving, the scientific method, algorithms, and much more! Lets get these little robots movin'!

467 – Get Your LEGO Mindstorm On!

Incoming 4th-6th grader | $140 | Dana Kickler

Do you like coding? Do you love robots? And do you think LEGOs are the best thing since sliced bread? Well, you are in luck because we have ALL those things in this class! LEGOs plus robots plus coding equals awesome! And LEGO Mindstorm. It also equals LEGO Mindstorm. Come join us for a week of building, programming, challenges, competition and tons of fun! You will get to help design, build, and program a robot to complete challenges and compete with other teams for awesome prizes. It doesn't get much better than this.

468 – Sixth Grade Success

Incoming 6th grade and up | $120 | Lisa Lucas

Going to sixth grade is a big leap, but this course can make the transition so much smoother. Taught by a current staff member who supports sixth graders at Alamo Heights Junior School, you will learn all about lockers, bell schedules, core and elective classes, flex choices, snack bar, lunch bunch, extracurricular clubs, homework, technology and expectations in a fun and informative way. We will take a walking tour of the entire campus and find out where everything is located. Come meet new friends and be ready for your new adventure!
